and to view our on-line demo, visit: www.public.zirmed/cpr+

With ZirMed and
CPR+ you can
transform the way
you get things done.

ZirMed. Revolutionizing the way you work.

ZirMed has created a complete web-based, revenue cycle management solution that is designed to revolutionize the way you work. Created to streamline every aspect of the healthcare revenue cycle, ZirMed's innovative technology and experienced customer service staff can provide the help you need to get your work done as simply and efficiently as possible.

Eligibility verification made easy.

Our Eligibility Verification solution has been designed to make your life easier. Whether you're performing verification individually or by batch, ZirMed can help reduce preventable claim errors and offers up to a 75% cost savings over manually verifying coverage. ZirMed can even automatically download schedule files each night and have all responses available at the start of each day.

A convenient solution to patient payments.

ZirMed offers both you and your patients' greater payment convenience and flexibility. Our comprehensive suite of financial services can help your office significantly increase the collection of co-payments, co-insurance, and deductibles at the time of service. And we can schedule automatic payments from a patient's credit card or checking account with ZirMed Payment Plans.

ZirMed has the tools to get your claims paid faster.

Let ZirMed take the stress out of claims submission and payment. Our Claims Management solution can help your healthcare business overcome rejections, delays, denials, and any other obstacle between you and your reimbursements. An extensive system of edits ensures that clean claims are delivered to payers the first time. And if rejections arise, ZirMed's online tools allow you to research, edit, and resubmit claims

Say goodbye to the mountains of paperwork.

Drowning in a sea of paper EOBs? ZirMed's Electronic Remittance Advice solution could be the lifesaver you're looking for. Delivering electronic remittance advices for nearly 500 payers, ZirMed has the technology you need to automate your most costly, time-consuming, and manually intensive processes. Need to find an individual remittance? ZirMed's ERA tools allow users to search for EOBs by check, payer or patient name.

The simple solution to patient collections.

Keeping things simple makes good business sense. That's why the professional statements and collection letters produced by ZirMed's Print Services solution are easy to read, understand and pay. ZirMed can help streamline on-line payments, and for payments arriving by mail, ZirMed's innovative Lockbox solution automates the process of opening the daily mail, creating deposit tickets, depositing checks, reconciling balances and posting patient payments.

Let us help you work smarter.

Using ZirMed's Healthcare Analytics can help your business harness the power of business intelligence to improve the overall performance of your revenue cycle processes. Our Healthcare Analytics tools can help you benchmark your performance against others in your state, region or specialty. And our Denial Management and Decision Support tools can identify the root causes behind your claim denials, zero pays, and claim reversals.
